Taking care of your teeth can be expensive. That’s why having the right dental insurance is so important — it not only pays for preventive care that can keep you and your family healthy, but it also helps pay for more extensive and costly care, such as fillings, crowns and root canals which often result in unexpected expenses.

Plus, dental insurance is an important way to protect your and your family’s overall health. Some diseases and health problems are linked to oral health. Keeping your mouth healthy does the body good — saving you money on health care in the long run.

**Why Guardian for your dental coverage?**

We have been a trusted name in insurance for over 155 years. To us, people count. It’s at the heart of everything we do year after year. It’s no wonder over 8 million dental customers¹ — and growing — put their trust in us to get the quality care they need.

---

1. Did you know...?  
- For every $1 spent on preventive services an estimated $50 is saved on more complicated procedures²  
- Tooth decay is the most common childhood disease — impacting sleeping or eating habits, and can contribute to school absences³
You’ll have these advantages with Guardian:

- **Large network of dentists to choose from** — Guardian is one of the largest dental insurance providers in the nation. That means finding a dentist near you is easy.
- **Dental expertise that saves you money** — With our long-standing experience, we have expertise working with dentists to negotiate discounts for our customers. Any care you receive from a dentist who participates in our network is more affordable — helping you keep more money in your wallet.

### A choice of great dental plans

We understand everyone’s budget, lifestyle and needs are different. So that you can choose what’s best for you and your family, two great plans are available. Here are the differences:

The Affordable Care Act and pediatric dental care

Under the Affordable Care Act (ACA), insurers must provide coverage for 10 essential health benefits (EHBs). One of these benefits is pediatric dental care for children under age 19. This is a comprehensive set of dental services, including diagnostic and preventive benefits such as oral examinations, x-rays, topical fluoride, and dental sealants, restorative services such as fillings, as well as coverage for major services such as oral surgery and crowns.

All of Guardian’s dental plans on the health care exchange marketplace include the pediatric essential health benefit. Also included is coverage for medically necessary orthodontia.
